Organic matter cycling along geochemical, geomorphic and disturbance gradients in forests and cropland of the African Tropics - Project TropSOC Database Version 1.0. *Earth System Science Data* XXX, DOI XXX, 2021.

Description

The basic information of the database is structured in the following way:

Part 1 – Location and basic background information for all plots and points where data were collected. Data can be found in file *11_plots_points.csv*, with description given in *11_plots_points.pdf*.

Part 2 – Sample identifier for the data base' internal connection between location of plots, points and soil data from different soils depths as well as vegetation data. Data is stored in *12_sample_identifier.csv*, with description given in *12_sample_identifier.pdf*.
